present. The following was submitted by Messis. Baldwin and Loew.

Resolved, That Messis. John Newton, George 8. Greene and J. Q. A. Gillmere are hereby appointed a commission of englineers to investigate the charges made against the efficiency of the chief engineer of this Commission and of imperfect work in the construction of the new aqueduct; with rull power to send for persons and papers and to make their examination thorough and complete so far as the same relates to the engineering and construction of the work in question.

The resolution was unanimously adopted. General John Newton is well known not only as the Chief of the Engineer Corps of the United States Army, but as the engineer who blew up the obstructions in Hell Gate, Flood Rock and Hallett's Reef. General Greene is the engineer of the old Croton Aqueduct, also formerly in the Army. General Gillmore is a United States Army Engineer. The three engineers will begin work at once. All of them have agreed to serve. Mr. Craven was informed that any time he wished to present his charges in detail the commission would hear hun. Mayor Grace remarked that the resolution would cover any undue allowances to contractors.

YOUNG INDIAN HUNTERS FROM ENGLAND YOUNG INDIAN HUNTERS FROM ENGLAND.

There were nine stowaways on the steamship Helretia, which arrived here from Liverpool yesterday.
Five of them were boys whose ages ranged from
thirteen to eighteen. These five boys were all from
Liverpool and had formed a band for the extermination of the red man and the hunting of the
buffalo. They were discovered the second day out
and not to work in the fire room. When they arrived here yesterday they were penitent and had lost
all interest in Indians and buffalo. Superintendent
Jackson, of Castle Garden, sent them to Ward's
Island to be washed. They are all sons of laboring
mer in Liverpool.

WESTCHESTER COUNTY. CITY ISLAND.—Charles H. Young has been appointed to take testimony concerning the mental condition of Nathar C. Beil, age seventy-eight. He is said to be the possessor of considerable money.

The secret society is always very charitable, but it does not permit any sentimental considerations to interfere when it comes to voting on new members. If the candidate is a "good fellow"—and a "good fellow" is too often a fellow who is good for nothing at all—he goes through with a whoop; but if he be a man who attends to his own business and his own family so faithfully that he has no time to make himself solid with the boys, black-balls are at a premium.—Hoston Transcript.
